Practice

Colour the boxes for the morning activities with blue and the evening activities with red.

Activity

- Prepare the flashcards with pictures of daily events which happen from morning to evening. **Example:** Going to school.
- Ask the students to sit in the circular form.
- Give each student a flashcard.
- The student has to express the event mentioned in the picture flashcard by miming only.
- The remaining students have to identify the miming activity and should say by which time interval the activity will take place.
- Appreciate the group for their correct response and continue the activity till everyone finishes the miming activity.

Learn

Changes in time intervals in a day.

Morning

Afternoon

Evening

Night
