Activity

Means of transport

Procedure:

1. Divide the class into small groups.
2. Discuss among the group members how each child comes to school?
3. Ask them to complete the table by marking the symbol "●" in the table.
4. Example: If 3 students come to school by bicycle, then mark the symbol "●" 3 times against the  .

How do they come to school?	"●" denoting number of students	Total
