◊ **Look at the shapes given below. Can we try the same shapes with our body?**

DO YOU KNOW?

Eagles, falcons and hawks can see small objects even from a great height.

We see and hear the world around us. We also use our senses of touch, smell and taste to know the world around us.

There are different kinds of tastes like sweet, sour, salty and bitter. Our tongue helps us to taste.

The lemon is sour, the mango is sweet and the bitter gourd is bitter.

What do you like to eat?
